## Tucana II - Amplifier

cena – 22 999 zł

Launched in 2006, the Tucana, Leema's first audio component, soon established itself as a genuine reference amplifier, winning many prestigious awards. Now the Tucana II extends both the performance and features of the original, to set a new global standard for integrated amplifiers.

## Tucana - Anniversary Edition

cena – 29 990 zł

Since its introduction the Tucana has always delivered unparalleled audio quality in a premium chassis that is well received by users and press alike. As such the Tucana has received multiple awards in the decade following its launch and has established itself as a reference device delivering what other amplifiers can only aspire to.

## Antila IIS Eco - CD

cena – 22 490 zł

In this latest development of the multi-award winning Antila, the Antila IIS Eco combines exceptional sound quality with captivating good looks and refreshing ease of use, to create a striking impression in any environment.

## Libra - DAC

cena – 34 990 zł

Decades of experience in digital audio for professional studios worldwide, crystallises in the fabulous new Leema Libra DAC. Enveloped in the same precision machined casework as our famous Tucana and Antila products, the new Libra DAC's simple but elegant looks conceal a staggering array of class leading technologies. The sheer quantity of input options alone is breathtaking:

## Hydra II - Power-Amp

cena – 23 990 zł

The Leema Hydra II is an intelligent, bridgeable stereo amplifier incorporating many developments pioneered in the Leema Reference mono-block, Altair IV. The Hydra II is notably more flexible than its predecessor. This technological chameleon is able to act in a multitude of roles, always creating a life-like sound stage and maintaining the presence, texture and timbre of the original performance.

## Hydra II Anniversary

cena – 29 990 zł

Since its introduction the Tucana has always delivered unparalleled audio quality in a premium chassis that is well received by users and press alike. As such the Tucana has received multiple awards in the decade following its launch and has established itself as a reference device delivering what other amplifiers can only aspire to.

## Pyxis - Pre-Amp

cena – 29 990 zł

The Pyxis pre-amplifier is the heart of Leema's Reference Series, designed to offer absolute transparency with superior resolution and musicality. The Pyxis is without doubt a state-of-the-art performer. A generous range of features ensures that the Pyxis offers complete satisfaction.

## Agena -Phono

cena – 22 990 zł

Agena is truly a state-of-the-art phono stage. Any magnetic phono cartridge can be precisely matched to the Agena's input circuitry, ensuring maximum retrieval of detail and depth. Music is presented with fluidity and transfixing reality.

## Sirius - Music Server

cena – 24 990 zł

The new Sirius is a hi-fi-grade streaming music server system that provides a high-performance solution for the storage and playback of digital music. Developed in partnership with Innuos, Leema's ex-BBC engineers have combined audiophile performance with the convenience of a UPNP/DNLA-compatible music server.

## Quasar - Amplifier

cena – 17 990 zł

Launched in 2006, the Tucana, Leema's first audio product, was a success. The Leema Quasar integrated amplifier is the latest iteration in the renowned Leema Stellar series of products. Sporting the same machined billet aluminium front panel styling as its Constellation series siblings, the understated but classy looks of the Quasar will blend seamlessly with any decor.

## Pulse IV - Amplifier

cena – 12 990 zł

Leema's Pulse amplifier was always a popular device, so it should come as no surprise that since the Pulse III production ended we have been biding our time behind the scenes to develop a worthy successor. We have reworked our famous Pulse amplifier for 2017, dramatically improving performance and adding new contemporary features, including a high-quality phono stage, aptX Bluetooth, plus a 32-bit/384kHz DSD-capable DAC.

## Stream IV - Streamer & CD

cena – 12 990 zł

The Stream returns! Sporting the same powerful streaming module featured in the Quasar to complement a quality CD transport mechanism, the new Stream IV is a digital source for the modern age.

## Elements - Amplifier

cena – 9 990 zł

The Leema Elements Integrated Amplifier continues Leema's strong tradition of producing some of the best amplifiers that money can buy. Not only does the Elements Integrated Amplifier include the most comprehensive set of inputs and facilities of any Leema product to date, it manages to fit all this into a compact and beautiful enclosure built to the same exacting standards as the larger Leema amplifiers.

## Elements - CD Player

cena – 8 490 zł

The Leema Elements CD Player continues the Leema tradition of ground breaking design, facilities and performance by incorporating many unique Leema innovations and the very best parts and processes available.

## Elements - DAC

cena – 8 490 zł

Digital to analogue conversion is a discipline that, on the face of it, looks to be a simple number crunching exercise. Yet, as in all things audio, the devil is in the detail. Chief among the gremlins is time, which if not precisely regulated, causes temporal distortion (jitter) in the digital signal and ultimately manifests itself as actual noise and distortion in the resulting musical signal.

## Elements - Power Amplifier

cena – 8 490 zł

The Leema Elements power amplifier is an incredibly versatile design. A row of switches on the rear of the unit, together with an internal analogue volume control allow the amplifier to be configured for various applications.

## Elements - Pre-Amplifier

cena – 8 490 zł

The Leema Elements Pre-Amplifier continues Leema's strong tradition of producing some of the best Pre-Amplifiers that money can buy. Not only does the Elements Pre-Amplifier include a comprehensive set of inputs and facilities, it manages to fit all this into a compact and beautiful enclosure built to the same exacting standards as the larger Leema amplifiers.

## Elements - Ultra Phonostage

cena – 7 990 zł

It has been 30 years since the digital compact disc revolutionised the world of audio, promising perfect sound forever. Yet many enthusiasts still prefer the warmth and immediacy of vinyl replay.

## Elements - Streamer

cena – 7 990 zł

The compact-chassis Elements Streamer is based upon the high-quality streaming module used in our Quasar streaming amp/DAC, with the addition of an advanced ESS Sabre DAC, enabling the device to be used as a standalone unit in a wide range of audio systems.

## Essentials Phono

cena – 3 490 zł

The circuitry inside the award-winning Essential Phono is closely based on that of the class leading Agena Reference Series Phono stage. its performance is simply astonishing at this price point; it was designed not just to compete favourably with its competitors, but to completely overshadow them, even those at 3 or 4 times the price.
